

Welcome to My Future!

This project is designed to help raise aspirations and inspire children about future career opportunities.

Your child had a virtual visit from people in jobs that work in a variety of fields that fall under the clue 'It's coming home'.

They explained what they do in their job and why they enjoy it.

Activities for children

You might draw a picture, do some writing or just talk...

- *Which job did you like best?*
- *Who was your favourite volunteer?*
- *How many jobs can you think of that work within 'It's coming home'?*

Skills Builder

Practising
essential skills

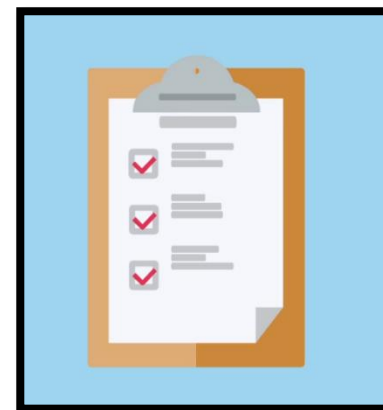

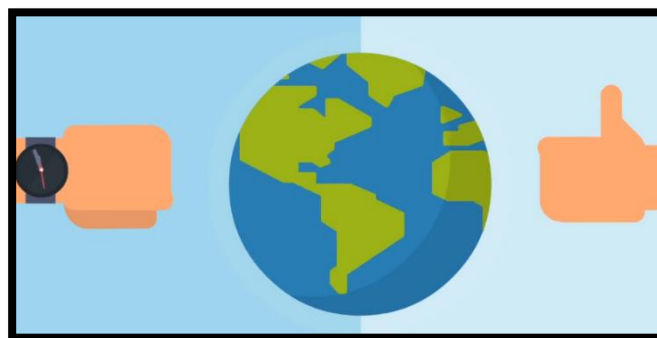

2025-26

Working cooperatively with others to achieve a shared goal

This skill is about how individuals work with others to achieve a shared goal. Initially, individuals show they can work with others, behaving appropriately for the setting, keeping time reliably and taking responsibility for simple tasks.

The next steps focus on supporting others, being accountable for their goals, contributing to group activities, and valuing others' contributions.

Suggested activities to try at home to build the skill of Teamwork: *For younger children*

Build a puzzle together. Talk about what the puzzle will look like when it is finished. Take it in turns to add a piece each. Encourage each other and celebrate when you fit the correct puzzle piece.

Create a piece of indoor or outdoor art together. This could be a collage, painting or a junk model. Talk about what you are going to make, then share the jobs between you. Model how to help each other to achieve the final design.
